of Laerz.

	SECRET/CONTROL - U.S. OFFICIAL ONLY 25X1
	-2-
5.	On a requisition sheet for potatoes to be delivered to the Soviets,  The potatoes were to be delivered to Units Zeliak, Ryvakov, Vasilenko and Yevmenkin.
6.	Visibility was so poor that only few aircraft could be seen at the field. Heavy flying by NiG-15s was observed throughout the day on 3 Narch. Forty-two MiG-15 and type-29 planes were observed at the field. There was heavy flying also between 23 and 26 March. On 24 March, 36 MiG-15 and type-29 aircraft; another estimated 15 MiG-15s were parked at the
	field。
7.	
8.	During the last week in February air activity observed at the field was heavier than that noticed between 6 and 8 March. MiG-15s practiced individual take-offs and flying in formations of two. The alert flight was continuously parked at the eastern end of the runway.
1.	Comment. The headquarters of a fighter division and two fighter regiments are stationed at Laerz airfield. The fact that fewer MiG-15s than previously were observed is probably due to the parking of aircraft in the numerous aircraft revetwents available at the field.
	ar one tieta'
2.	Comment. The construction of aircraft revetments west of the southern end of the short runway is reported for the first time. The arrival at the field of concrete slabs was reported previously.
3.
